Number 3

R. C. Hargrave Resigns From Town Council

This Means Four Vacancies on The Council

The last session of the present council was held last Monday evening with Mayor Works in the chair and councillors Hargrave, Lavelle, Newham and Broughton present.

As many questions brought up were left to the new council very little new business was transacted.

Council was surprised and disappointed when the secretary read a letter from R. C. Hargrave tendering his resignation from the council board, although he had still another year to serve. The resignation was accepted with regrets. Mayor Works and other councillors expressed sincere regrets at Mr. Hargrave's decision and thanked him for the interest he had taken in town affairs since assuming office on the board.

The usual monthly accounts were approved for payment and the request from the School Board for \$900 was granted.

The Mayor reminded the Council of the annual ratemakers' meeting to be held in Cliff Hall on Friday evening of this week and suggested that the Chairman of each committee have his report ready for the occasion.

The resignation of councillor Hargrave means that four councillors and a mayor will have to be selected this year.

Would Not Repeat Debt Adjustment Act

This is Made Quite Clear By Opposition Leaders

Apparently supporters of the Brownlee government are spreading the story that if any other government went into power at Edmonton the Debt Adjustment Act would be immediately repealed. Both opposition parties have made it quite plain that there is no truth in this statement. Addressing a meeting in Edmonton recently Mr. W. R. Howson leader of the Liberal party in this province dealt with this matter. He stated he did not think the Debt Adjustment Act went far enough; that it should apply to all debtors in the province who are making an honest effort to meet their obligations, and that the act should be in fact a Debt Adjustment Act Not a Debt postponement act.

He pointed out that the Act as drawn simply postponed the evil day, and that when things changed the debt plus accumulated interest would still be on the shoulders of the debtor.

We understand that two laureates are being taught in grade 6 this year — English and Scotch. Prizes were won last week by Jessie Stratton and Betty Gordon for reciting "The Whig" with the most approved Scotch accent. Well done, ladies!

Annual Meeting of Gordon Memorial

Reports Showed Progress Made During The Year

The Gordon Memorial School room was a lively centre on Monday night when the congregation held its Annual Meeting. A remarkable feature was the number of young people present. Under the chairmanship of Rev. R. E. Pow, with Mr. A. A. Collard as Secretary the business of the evening was carried through without a hitch. Reports were received from the Session, the Official Board, the Church School, the Cadet Roll, the Trail Rangers, the two C.G.L.T. Groups, the Y.P. Society, the Senior Church, the Ladies Aid, the W. M. S. Society and the Mission Band.

All reports were good, some exceptionally so, as far as membership, attendance and activity were concerned. There was a decrease in revenue in most cases, but progress had been made in decreasing some accounts carried over from former years. H. G. Sheehy, H. M. Sangster, W. Henderson, Sr. and Mrs. A. J. Keenleyside were re-elected to the Board of Stewards. A. N. Collard as Congregational Secretary and Treasurer, H. M. Sangster and C. G. Buchholz as auditors, Mrs. Sellhorn and Mrs. J. L. Wyatt were chosen as representatives on the Executive of the Red Cross Society.

Mr. Wm. Henderson was congratulated on entering his 96th year, and had been presented with a cake by the Ladies Aid. A vote was made an honorary member of the Trail Rangers. With the presentation of a framed decorated address. He made graceful acknowledgment of these honors in a clear and concise speech. The Y. P. Society then took charge of proceedings and entertained the gathering with community singing, games etc. Near the end the ladies served delicious refreshments and thus the evening was pleasantly closed.

Redcliff School Win Still Another Shield

Strathcona Trust Trophy Awarded Local High School

Word has just been received from Inspector H. C. Swenson, who has taken over part of the work of this inspectorate during the illness of Inspector Carr that the Strathcona Trust Physical Training Shield has been awarded to Redcliff School for outstanding work in physical education during the year 1932. The award comes as a result of the smart exhibition of physical training given by six teen "Cublets" at the Teachers' Convocation last November. This makes the second shield to be won by the local boys during 1933. The Army and Navy Veterans' Trophy won last June was awarded to the smartest kick team of sixteen boys in Alberta. The Strathcona Trust Shield is awarded annually to the school which is in the opinion of the Inspector is doing the best work in physical training in the inspectorate.

Confirmation Held in St Ambrose Church

Lord Bishop Delivers Interesting and Inspiring Address

With all the traditional dignity of Anglican ritual the sacrament of confirmation was administered to seven candidates in St. Ambrose Church on Sunday evening by the Right Reverend the Lord Bishop of Qu'Appelle, D. D. The candidates, Mr and Mrs W. Pickering, Mrs L. Lawson, Miss Eva Pinder, Mrs S. Balby, Eric Congram and Elmer Congram, were presented by the Rev. D. Malcolm Stewart, vicar of St. Ambrose. The lessons were read by Rev. R. C. Thompson, who acted as Bishop's Chaplain and the Lord Bishop delivered an interesting and inspiring address. In the course of his remarks the Bishop dealt with the Apostolic origin of confirmation, and the retention of the Sacrament as an instance of the Biblical Catholicity of the Church of England. After the service a reception was held in the vicarage at which the confirmation candidates with their friends and relatives and the principal church officials were given an opportunity of meeting the Bishop.

Mock Election at School Last Friday

Editor's Candidate was Elected On Third Count

A mock election was held at the school last Friday. In the morning the candidates and their scrutineers went to the senior rooms and gave their speeches. Mr. Lang from Medicine Hat was up and gave a short talk to the pupils. Voting took place from 12:30 to 2:00 o'clock and then the votes were counted in the high school room. On the third count the Editor's team, running a Liberal candidate won with a majority of one. It has been decided that the Editorial Staff should get a year book printed. This will be done as soon as possible. The next meeting of the L.H. will take place on Feb. 2 and will take the form of stump speaking. Two speakers from each team have been chosen and they will choose a subject 3 minutes from the time they have to speak and give a speech on it. Visitors will be welcome. The Annual Dramatic Competition will take place early in February.

Who's afraid of the big bad wolf-dog? Well, according to reports a great many residents of Redcliff are actually afraid of the many police dogs which are running at large. Not only children but many grown-up fear them also. We heard only recently of a child who is deprived of the education of Sunday School because of its fear of such dogs which have to be passed on the way. This condition should not be in a civilized country. No citizen should be in any danger of canine attacks on the streets of any Canadian town.

Little Theatre to Give Another Entertainment

Will be Given on Friday February 9th

Arrangements are now well under way for another entertainment to be put on by the local Little Theatre Group, in the new premises on Friday, February 9th.

On this occasion the Little Theatre group will co-operate with the High School which will have its annual dramatic contest at the same time. School students are now rehearsing the several selections which they are to put on and we are assured that these it themselves will furnish a splendid evening's entertainment.

As this will be a contest judges from outside will be on hand to award the prizes.

In addition to the school contest the Little Theatre group will stage a one act play entitled "The Maker of Dreams."

"The Maker of Dreams" has been cast locally under the direction of E. L. Stone. Those taking part are Emma Frey as Perette, Malcolm Stewart as Perrot and Bernard Thacker as The Maker of Dreams. This is what might be termed a pretty little fantasy which gives ample scope for amusing and interesting incidents as well as for a display of real talent.

Tickets for the entertainment will be on sale at the beginning of the week. Be sure to secure one and lend your encouragement and support to this community movement.

Plan for Curtailment of Wheat Acreage

Agreement Requires 15 Per Cent Reduction in Canada

Plans to lop nearly 4,000,000 acres off the area sown to wheat in Canada, during 1934, are being studied by agricultural and legal officers of the Dominion government. Canada's obligations under the world wheat agreement were discussed at the close of the Dominion provincial conference by Premier R. B. Bennett and the Premiers of the three prairie provinces. The wheat agreement, signed by Mr. Bennett in London last summer, requires this country to reduce its acreage sown to wheat by 15 per cent. Last year Canada's total wheat acreage was 25,482,100 acres and of this the three prairie provinces had 25,177,000.

Two suggestions are understood to have been discussed on a compulsory agreement quota on each farmer and the other a limitation of the amount of wheat each farmer may sell. Either one would likely result in the sanction of both the Dominion Parliament and the legislature of the provinces to make it binding in law.

The local Legion will hold a Burns' social in their club rooms on Friday evening, Jan. 26th.

Appear to See The Handwriting on Wall

Deserting The U. F. A. For The C. C. F. Banner

Several things have happened recently which would lead one to believe that there are many in Alberta who see the handwriting on the wall so far as the U. F. A. government in this province is concerned.

About a year ago there was a by-election in Calgary for the legislature. On that occasion Miss Turner was a candidate. She entered the campaign as a Labor candidate, supporting the U. F. A. government and the C. C. F. Miss Turner was badly defeated by an independent candidate opposed to the Brownlee government. Two weeks ago there was another by-election in Calgary for the legislature and Miss Turner was again a candidate. But on this occasion although an employee of the U. F. A. she was less than like warm in her support of the U. F. A. but rather stressed her allegiance to the Labor and C. C. F. causes. In this election an Independent Labor candidate who was avowedly opposed to the U. F. A. government, was also in the field, although Labor unanimously supported the U. F. A. a few years ago. Both were again badly defeated by the Liberal candidate who was opposed to the Brownlee government.

At the U. F. A. convention held last week officials and delegates appeared to want to lay more stress on their affiliation with and support of the C. C. F. than the U. F. A. and a resolution was passed making it compulsory that all former U. F. A. members of the legislature and all candidates accepting nominations must be supporters of the C. C. F. platform in its entirety.

All this points to the conclusion that the U. F. A. members themselves as well as other organizations which have been fighting under their banner, are beginning to realize that the U. F. A. government is not so popular as it once was and that in order to make any kind of a showing in the next general election it will be necessary to have something different with which to appeal to the electors.

They appear to think the C. C. F. their best bet at present.

Gleichen To Play In Hat Saturday

Fast Hockey Game Promised For Saturday Night

Medicine Hat Monarchs have arranged for a game with Gleichen hockey team to be played in Medicine Hat on Saturday evening of this week. Gleichen has one of the best teams along the line and as the Monarchs are showing up exceptionally well recently a real good game is assured.

The change in the weather has put the ice in excellent condition for fast hockey. Don't miss seeing the game.

It is now around to subscription time again. How is yours

Many Town Offices To Be Filled This Year

Good Opportunity For Aspirants To Get in Swim

It is now beginning to look as though there will be a good opportunity for a number of aspirants for municipal honors to get into the game in the approaching municipal election. Councillor Hargrave's resignation at last council meeting means there will be four vacancies to fill on the council and as all the retiring councillors have definitely decided they will not run again it means four new councillors will have to be elected. Mayor Works' term has also expired and as he will not again seek re-election it means practically a new state of town officials. Councillors Broughton and Newham are the only two of the old council remaining.

On the school board there are three remaining trustees, and according to rumor, none of these will seek re-election. The retiring members are Mrs. Kitchen, F. Congram and J. Stratton.

With all these vacancies to fill, ratemakers will have to do some scurrying around to secure the necessary candidates. This is a matter which should not be left to the last minute. Nominations are received for only one hour, between 11 and 12 on Monday, Feb. 5th, and that hour passes too rapidly to allow for choosing candidates and getting the necessary papers made out, properly signed and deposited with the returning officer. Candidates should be secured before nomination day; their consent to run assured and they should be on hand to put their J. H. on the dotted line.

Already several names have been suggested for the several offices to be filled but so far there does not appear to be any thing definite.

It has been suggested to the Review several times that this would be a good time for the Taxpayers' Association to get busy again. This is a time in which all taxpayers should be vitally interested.

National Restaurant Has New Management

Proprietors of White Spot Medicine Hat, in Charge

The proprietors of the White Spot, Medicine Hat, have taken over the management of the restaurant in connection with the National Bakery in that city.

The new management extends to their Redcliff friends an invitation to come and visit them for afternoon teas or meals at regular hours. There will also be dancing in the evening for which there will be no cover charge.

Mrs. Colter, who has been doing the baking for the White Spot will be in charge of the kitchen. These new quarters will be ready for business this week-end.

Butter Supply Down

Overproduction brought slump but Market Prices Now Rising

Driven out of production in the autumn months by low prices, Saskatchewan butter producers have given the rest of the industry the welcome new year's gift of a rapidly rising market.

Last autumn wholesale butter prices at Montreal, one of the key markets for Canada, went as low as 18 and 37 cents. For many weeks butter was quoted at less than 20 cents. This meant excessively low prices in Western Canada.

The dairy branch at Ottawa reports that butter (at prices in Saskatchewan last August and September) went as low as 12 cents per pound delivered at the consumer, or about 10 cents net to the farmers.

The cause of the slump was an unexpected overproduction. On August 1, the amount of butter in stores showed an advance of 10,000,000 pounds over the corresponding date in 1932. This surplus placed the industry on an export trade with all that this entailed in the way of low prices. Since August 1, some 4,000,000 pounds have been exported. The remainder of the surplus has disappeared because in the western provinces, chiefly Saskatchewan, production was drastically curtailed, which enabled the consumers to catch up with the available supplies.

The country entered the new year without a butter surplus and with every prospect of higher prices.

Last August, Saskatchewan farmers increased production over the corresponding month of 1932 by 39.3 per cent. In November, owing to the discouragement of low prices, production was of a different order and of a different character. It was of a different order and of a different character.

This coincided with the export of four million pounds, explains the shift in change in conditions and the rapidly rising prices.

New Home Suits Buffalo

Animals Sent From Canada Thence In Australian Climate

Ten thousand miles away from the haunts of Buffalo National park at Wainwright, Alta., Canadian furs (to quickly become acclimatized in Australia). They adapt themselves to the climatic conditions of the southern hemisphere—where it is summer there when it is winter here. Canada's latest gift of one bull and one cow has just reached the island, and already they have begun to shed their "winter coats" for the antipodean summer.

The three donations have been sent to the Southern Australia Zoological and Acclimatization Society, as a token of imperial good will. Only a few months ago a calf was born in the Australian zoological gardens of Canadian "parents."

Permit Individual Gardens

Revolt Government Allowing Workers To Grow More Produce

A Soviet government decree ordering the allotment of individual vegetable gardens for the country's workers has been made public. The decree stipulates that huge vacant land areas shall be made available for this purpose during 1934, in order to enable the most desiring workers to increase their food supply by their own activities in their spare time. Plots will range in size from one-quarter to one-half acre to each family. They will be leased from five to seven years and provided their cultivation is not neglected, will be free from taxes and crop levies.

Reads Roll Of Honor

Crowds Fill Church To Hear Prince Of Wales

A long queue of waiting people had to be turned away from the crowded St. Dunstons Parish church recently when the Prince of Wales read out the village roll of honor.

The Prince, with his war medals pinned to the lapel of his blue overcoat, read out slowly the name of each man of the village who fell.

When he had read the last name the Prince added:

"They died, leaving us a great example."

Enveloped with an automobile seat over the real wheel and pedals between the front and rear wheels have appeared in Paris.

In the last eight months one company in Britain has sold 50 large air liners.

W. H. U. 1933

UNCLE SAM MAY GET STOCK MARKET CONTROL

The labors of the Senate Banking and Currency Committee, which spent the last year investigating Wall Street stock and banking practices, may bear fruit during the coming session of the Congress, according to Senator Duncan Fletcher (top left), the committee's chairman, who revealed that recommendations will be made seeking Federal regulation of the Stock Exchange. Following the disclosure, which came to light under the searching inquiry of Ferdinand Pecora (top center), counsel for the committee, who quizzed such big money men as J. P. Morgan (lower left), C. E. Mitchell (lower right), former head of the Chase National Bank, and Alfred Winslow (top right), former head of the Chase National Bank, legislation will also be proposed to stop loopholes in the income tax laws. Advocates of Federal stock control cite ruling of U.S. Supreme Court Justice Brandeis (lower right), that Congress may deny use of mails to any business conducted under conditions deemed injurious to public welfare.

Oriental Are Clever

Western World Cannot Compete With Them In Smarts

Smart Yankees are discovering that they are more amateurs compared with the Japanese, and the knowledge is not comforting to those who have visioned developments in the export markets.

American manufacturers visioned a steady flow of gold into their country when they started to receive orders from Yokohama, Tokyo, and Osaka.

Locomotive, factory machinery, engine parts, valves and many other products went across the Pacific. Factory owners prepared for repeat orders on a large scale, once the Japanese became acquainted with U.S. products.

But they reckoned without the wily Orientals. To the last order pin, the Japanese copied the American machinery. U.S. models served for factory machinery. Out of these factories came low-priced goods made with cheap Japanese labor.

Now the market in Japan doesn't look so rosy. In fact higher tariffs may be necessary in order to keep the cheaper Japanese goods out of the United States.

Just what can be done about it no one seems to know. Articles can be patented in the United States but there is small chance of carrying those patent rights to nations like Japan, England. The patent office is still thinking out this latest problem.

Cultery For London Hotel

New Cumberland House Has Forty-Five Tons Of Silverware

"Plate and cutlery not supplied" runs many an advertisement for a furnished house to let, and most prospective tenants think that a small matter. It is scarcely a trifle at the Cumberland, the new hotel at Marble Arch, W., just opened in London, England. The plate and cutlery were made in Sheffield. There are 95,000 pieces, weighing 45 tons. There are 30,000 pieces of silverware, 47,000 of flatware and 18,000 of cutlery. They have taken six months to make and given employment to 700 hands throughout the time.

Prefers Flowers For Color

City officials of Edinburgh, Scotland, want all this color in Princess street, the business thoroughfare, to be supplied by nature. They have ordered all colored advertising signs removed from the street in order not to detract from the extensive flower beds on one side of the street, which are brilliantly illuminated at night.

Fifty tons of material will be used to replace the Napoleon memorial at St. Helena, where Bonaparte lived in exile.

Nine of every 10 passenger automobiles imported into Argentina this year were from the United States.

Adventure For Flying Prince

Rumor States British Heir May Try Arctic Route To Canada

M. H. Hall in an article in the Toronto Star says: "The Prince of Wales may fly to Canada by the Arctic circle route, states William Mann, who flies with the prince on official journeys, in St. John's magazine."

"The time is coming when we shall have a new and great adventure for the flying prince," he says. "Recently there has been much talk with pilots, with whom the prince loves to discuss the prospect of the air, of an Arctic circle route to Canada. Maps have been studied and possible flying routes examined. It may well be that the prince will give a lead to Atlantic travel by this route landing in Canada and proceeding by air to his ranch in the west. And perhaps he will time pay another visit to New York, this time by air."

Why Sailors Wear Blue

Custom Originated With Ancient People Near Coast Of Sicily

The blue color so prominent in the uniforms of almost all marines is of ancient origin. Vegetius, in his fifth book on the military affairs of the Romans, traces the origin of this color to the Veneti, an ancient people dwelling near the coast of Sicily, and well versed in seamanship. It was customary among them to paint their outgoing ships, as well as the masts and sails, with a blue color; also their soldiers and sailors wore blue uniforms. According to this author, the Latin word "Venetus," which was both the name of the color and that of the people, points to its origin. From the Veneti the custom was adopted by the Romans.

Chinese Gods Fashioned

From Manitoba Quartz

Veteran Winnipeg Prospector Makes Money From Mining Stone

Mining rose quartz, from which miniature Chinese Buddhas are made, has proven a lucrative side-line for Ken Miller, veteran Winnipeg prospector. This lustrous stone abounds in the Blind River territory, 80 miles west of the regular newspaper offices, and for which publication is virtually demanded. That is one phase of the development, the national phase. The other phase the editor has always had with him, local requests for free publicity for this and that worthy object, and in week out, and a veteran like Solomon is required to draw an equitable line and a leading Water-

The publisher of the standard Western Ontario newspaper whenever approached by a committee of church people for a complimentary space had a stock answer for such deceptions. He would say: "Space is the only commodity I have to sell. You would not think of going down street and asking So-and-so for so many hundred pounds of sugar, nor would you ask him to lend you a hundred dollars for so many tons of coal. If you want publicity for your event, advertise at the regular rates. I will hold up my end of the bargain whenever I can by making a subscription or buying a couple of tickets for the cause."

—St. Catharines Standard

Apples Tempted Bear

Big Bruin Shot As He Was Enjoying The Fruit

Hunting for the "big bad bear" by night continues to prove a popular pastime on Vancouver's north shore and as a result of excessive boldness, another 300-pound bruin has bit the dust.

The bear appeared on several Lynn valley thoroughfares and commenced his night's escapade by scaring several citizens. Then it made for an orchard where a dog owned by Leslie Jones sounded a warning of bruin's approach at 1:30 o'clock, and he was spotted in the moonlight, under an apple tree, when he was mauling fruit that had fallen to the ground.

Mr. Jones begged the bear as it was attempting to scramble through a wire fence. One shot and bruin was no more.

A Double-Dye Fish As a fish called "Double-Blue" has, as its name implies, extraordinary means of sight. Each of its two eyes is divided in half. One half is able to see in water and the other half is the air. This is because these fish frequently swim along the surface with their eyes partly out of the water.

Shortage Of Bricks Shortage of bricks is holding up the building industry in Great Britain. This is in spite of the fact that one firm with 27 brickyards is making 9,000,000 bricks a day.

Calcutta and Dacca, in India, are to be connected by a passenger air service.

The Editor's Side

People Forget Cost Of Running A Newspaper When Requesting Free Publicity

A case of righteous indignation by an editor and publisher is not exactly rare; it is pretty much commonplace. The editor of the Backview (N.B.) Tribune has declared to his constituents that in the matter of free publicity, he is willing to be the goat, sometimes, but not all the time, and, moreover,

"Do you ever try to steal groceries," I said to a man the other day.

He came near blowing up. He spat-frothed turned black in the face and finally when he could find words, he said:

"What do you mean by asking me such a question? I have a good mind to."

"Calm yourself," I said, "I did not say that you ever stole groceries. I asked you if you ever had tried to do so."

"What in the world are you driving at?" he said.

"I will tell you," I said. "Thousands of people, who would not think of stealing a car, deliberately walk into newspaper offices and attempt— they usually get away with it—to secure publicity for nothing. The ingenious methods of men, women and organizations, to keep down expenses by stealing space in newspapers are many and varied. Many people take the position 'that a newspaper must have something to fill up, then why not give free publicity to boost some money-making event.' It may not occur to some people that it costs a lot of money to run even a small newspaper, and that money does not grow only in the bank, but is consumed on trees, especially in these days of depression."

Certain it is that in this decade, whether the idea has been cribbed from the old-time P. T. Barnum Circus, we know not, but there have developed public relations departments, publicity committees, by the hundred all over the United States and Canada, the product of which is poured into the regular newspaper offices and for which publication is virtually demanded. That is one phase of the development, the national phase. The other phase the editor has always had with him, local requests for free publicity for this and that worthy object, and in week out, and a veteran like Solomon is required to draw an equitable line and a leading Water-

Applauds Tempted Bear

Big Bruin Shot As He Was Enjoying The Fruit

Hunting for the "big bad bear" by night continues to prove a popular pastime on Vancouver's north shore and as a result of excessive boldness, another 300-pound bruin has bit the dust.

The bear appeared on several Lynn valley thoroughfares and commenced his night's escapade by scaring several citizens. Then it made for an orchard where a dog owned by Leslie Jones sounded a warning of bruin's approach at 1:30 o'clock, and he was spotted in the moonlight, under an apple tree, when he was mauling fruit that had fallen to the ground.

Mr. Jones begged the bear as it was attempting to scramble through a wire fence. One shot and bruin was no more.

A Double-Dye Fish As a fish called "Double-Blue" has, as its name implies, extraordinary means of sight. Each of its two eyes is divided in half. One half is able to see in water and the other half is the air. This is because these fish frequently swim along the surface with their eyes partly out of the water.

How Bees Spend Winter

Do Not Hibernates But Are Content To Huddle Together

Honey bees do not hibernate! The true cause of the word, for they move about within the hive and an ordinary taking food continues in the winter months. As the winter approaches and the temperature with the hive lowers between 60 and 70 degrees Fahrenheit, the bees mainly quiescent on their combs but as soon as it drops to 57 degrees or lower the bees pack together in a very compact cluster. The bees in the center of this cluster produce heat by muscular activity while those on the outside act as an insulating ring. The temperature of the cluster is maintained at approximately 67 degrees throughout the winter. The colder the hive the harder must the bees work to keep up the necessary temperature, but as work shortens a bee's life and because it is necessary that they live through the long winter and well into the following spring, it is imperative that the bees have their colonies strong in young bees when winter arrives and of sufficient protection is provided to maintain the proper temperature of the hive with the least expenditure of energy on the part of the bees. It is already been said that the bees take food continually but as it may prove disastrous to feed them during the cold weather, sufficient food to carry them safely through the winter should be given before they form their winter cluster. During the winter months the cluster of bees changes position in order to keep in contact with the food supply. Healthy bees discharge their waste material only once in a while, but during the winter when flight is often impossible for several weeks at a time, this waste material collects within the bees, and unless the food consists of high grade honey or sugar syrup, a bad attack of dysentery resulting in the death of the bees is inevitable. Should the weather during the winter turn warm enough to raise the temperature of the hive to around 70 degrees Fahrenheit, the cluster of bees will expand and if the outside temperature be high enough, a flight will take place. But the bees, however, a steady low temperature, which causes the bees to remain at rest for the greater part of the winter is desirable.

Blind To Present Comedy

Actors Able To Make Audiences Forget They Are Sightless

A group of blind actors and actresses at Pasadena, California, is building high hopes on a theory that they can make the audience forget that they are sightless—makes them laugh and enjoy themselves.

"This Pasadena Blind Players presented—An Hour in June"—recently as a feat. It was a comedy, however, a steady low temperature, which causes the bees to remain at rest for the greater part of the winter is desirable.

The audience seemed to forget at once and they and they laughed heartily," James Townsend, handsome, talented actor, said. "We found our way about the stage easily by the positions of rugs and furniture."

"We have tried to select plays which do not have the facial appearance of blindness. Make up, too, helps much."

The players have "The Intimate Strangers," a three-act comedy, by Booth Tarkenton, in rehearsal and will present it soon.

Find Ancient Toys

Playthings Evidently Used By Children 3000 Years Ago

Ancient playthings that were evidently the toys of children of 3000 years ago were found at Pusztosany, Hungary, where the National Museum is excavating a bronze age site. Pottery, artistically decorated and in a state of almost perfect preservation, has been unearthed, together with numerous bone, stone and bronze utensils. Some of these are of toy size and of object of particular interest is a little bell in the form of a bird, with head, wings, tail and legs, all richly decorated.

Sick National Anthem

South Africa is seeking a national anthem, but is having difficulty in finding it. Cultural societies are conducting a contest to obtain one, but the chairman of the selection committee has just reported that the verses submitted so far are mainly doggerel.

The sales of branded beef in all Canada for the month of October totaled 7,310,855 pounds.

Japan is encouraging toy making.

JUST FOR FUN

There are times when we
would like to change the slogan
"It's smart to be thrifty" to
"It's smart to be thrifty"

A Hollywood actress, apply-
ing for a passport and asked
whether she was married, re-
plied: "Occasionally"

An old fashioned girl blushes
when she is embarrassed; a
modern girl blushes when she
is embarrassed; a modern girl
blushes when she blushes.—Al. Brnard

A man always catches a wom-
an until she catches him.

Half loaf is better than
none.—Fanny Brice on Girls
who are distant.

Interesting
Local Items

The report of the annual
meeting of St. Ambrose church
will appear in our next issue.

Mrs. D. Kerr and daughter,
Miss Anna, are at present visit-
ing friends in Medicine Hat.

Mr. Geo. McGregor of Win-
nipeg was in town on Friday
on business in connection with
the Dominion Glass Co.

Keep in mind the Burns' Sup-
per and Concert to be held in
Gordon Memorial schoolroom
this evening. Supper commen-
ces at 6:30 and concert at 8:00.

The sewing committee of the
Ladies' Aid of Gordon Mem-
orial church, held a social in the
school room on Monday after-
noon. A feature of the after-
noon was a jig-saw puzzle con-
test.

About 20 members of the
14th Avenue Church badmin-
ton club of Medicine Hat will be
at the local club members
next Wednesday, when a
friendly tournament will be
staged. Lunch will be served
after the games and a social
hour enjoyed.

Redcliff Bread took a big
drop last Tuesday morning.
When George Oakland was on
O. Ruud's bread wagon dur-
ing the high wind storm, he
turned to the side of the grade
on Broadway to pass a truck.
This caused a slight slip to the
board and at the same time the
heavy gale from the north-west
caught him amidskip, turning
the craft completely over on its
side, throwing the pilot into the
rough of the gale and tearing
away the propeller. No S.O.S.
was sent out and after the
wreck was salvaged old Dobbin
was port under his own
steam.

A meeting of merchants in
Medicine Hat, Redcliff and Dis-
trict is being held in the City
Hall, Medicine Hat on Friday
evening of this week, Jan. 26th
at 8 o'clock, for the purpose of
discussing the points referred
to by the Minister of Trade and
Commerce in regard to retail
distribution. Every retail mer-
chant is urged to attend this
meeting as it is to their interest
to hear this matter discussed.

BADMINTON ACTIVITIES

The Redcliff Badminton Club
has arranged a series of ex-
change tournaments with some
of the Medicine Hat clubs. The
first games are scheduled to
take place on Wed. Jan. 31st at
3 o'clock between Fifth Ave.
United Club and our local Club
at Redcliff.

All members are requested to
be present to insure a suitable
reception to the visiting Club.
Last year Fifth Ave. Club gave
us some very nice games, and it
is to be expected this year that
the games will be much better
than before as both Clubs have
improved their games consider-
ably. All our new members
have shown remarkable improve-
ment and it is to be hoped that
we shall be able to make
several entries for the Southern
Alberta Tournament to be held
in Medicine Hat in the near
future. Further information
will be posted in the Badminton
Club about next Wednesday's
play.

The Secretary

Mr. and Mrs. Jackson of
High River are visiting the lat-
ter's father Mr. Watson.

Mr. W. Thacker, who was
operated upon in Medicine Hat
recently is progressing favorably.

Mrs. Fairbairn and her daugh-
ter Mrs. T. Claire spent the
week end with friends in the
Hat.

The little daughter of Mr.
and Mrs. S. Britt is quite ill
with whooping cough and an
attack of pneumonia.

Tommy Melvogue's many
friends in Redcliff will be inter-
ested to know that he took upon
himself a wife, this week at
Portland Oregon.

Min. Ballantyne, who is at
present in Medicine Hat hospital,
is expected to be sufficiently
recovered from her recent op-
eration to return home this week-
end.

The Young Peoples society of
Gordon Memorial Church held
a skating party at the rink on
Monday evening after which
they had refreshments in the
school room. A most enjoy-
able evening was spent.

Members of the local Oxford
Group will witness in Gordon
Memorial Church at the morn-
ing service next Sunday and a
mass meeting will be held in the
schoolroom of the church in the
afternoon at 3 o'clock.

During the past week several
members of the badminton club
served refreshments after the
evenings' games. Among
these were Mr. and Mrs. Har-
grave on Friday evening, Mr.
Hicks and Mr. and Mrs. R. Can-
on Monday and Mr. and Mrs.
Trembath last evening.

At the annual meeting of the
Medicine Hat—Redcliff Ken-
nel Club held last week end,
it was decided to hold the annual
dog show this year on May 24.
W. Armstrong was again elec-
ted president and C. W. Park
secretary. Mayor Worts was
selected as one of the honorary
presidents and a member of the
executive.

Redcliff Reminiscences

Taken From Our File of
Jan. 29th—1915

250 horses are being pur-
chased in this district for re-
mounts and artillery.

Wilfred Campeau won the
free sewing machine at the
Broadway Department Store.

A firm in Catasque, Pa., has
received an order for one mil-
lion horse shoes from the Rus-
sian government. The plant is
working night and day.

The finding of gold in a
goose's gizzard has started a
big gold rush near Irvine where
the lucky goose had been feed-
ing. Already 160 claims have
been staked.

Almost 100 guests sat down
to the Burns' banquet in the
Redcliff Hotel on Monday last.
Those who proposed and re-
sponded to the toasts were as
follows:—"The King" W. J.
Hayes; "The Land we Live in"
R. S. Hodge and Wm. Hender-
son Sr.; "Immortal Memory of
Burns" B. J. Bott; "Auld Scotia"
H. A. Ireland and G. F. Jamieson;
"The Army and Navy", Chief
Reynolds and Jno. Rutherford;
"The Lassies" E. L. Stone and
F. Baird; "Mine Host" D. Mc-
Lachlan and D. Broadfoot.

Mr. Carr, Inspector of schools
in this district for several years
is again confined to bed, in a
serious condition.
